Final Presentation

Finals XX

The Team

Testing Methodologies

- Reconnaissance
  - OSINT
- Target Assessment
  - Locate vulnerabilities
- Exploitation
  - Testing vulnerabilities

Key Strengths

- Network Isolation

- Improved Password Complexity

- Service Containerization

Key Findings

- Poor Password Hygiene
  - Password Reuse
- Vishing/Social Engineering Campaign
  - PII Disclosure
- Guest Kiosk
  - Deep Freeze

Physical Security

- Reset Button Accessibility
  - Mounting Holes
- Bump Attack
  - Restrictive location

Social Engineering

- Name disclosure
  - Room information
  - Payment amount
- Lack of banking information disclosure
  - Good PII security policy over the phone
  - No home address disclosure

Q/A
