Organizational Information

IT Systems Administrator IV

About the Role:
This IT Systems Administrator IV role reports to the IT Team Lead 1 step below the Director of Technology, 6 steps below the CEO This hours a week.
Required Skills and Experience:

- 20 years of Windows 2012 experience
- Windows 15 experience
- Active Directory master
- Be able to unclog internet pipes and toilets as needed
- Masters degree required. PHP preferred. PHP candidates accepted as well.
- Familiar with your SQL
- MUST BE FLUENT IN ITALIAN OR SIMILAR ROMANCE LANGUAGE

Whenever I start to worry about my PHP skills becoming obsolete I remind myself that The Cozy Croissant Hotel will undoutedly continue using it until the heat death of the universe....

Architectural Information

What I would give for ███████ ███████ to put as much thought in to his passwords as he does for his amazing daily breakfast specials at The Cozy Croissant Hotel!!!

You know just because your name is ███████ doesn't mean you have to be dumb as a rock with your passwords...***cough cough*** #ThisCroissantNotSoCozy

FUTURE SUGGESTIONS

03

Future Suggestions

- Remove sensitive business info from public facing web pages

- Train employees on proper use of social media

- Consider an adversarial mindset when publishing public

information
